	2018 - 2021 Winnebago Intent

These motor homes were manufactured May 21, 2012, through December 28, 2022. These manufacturing dates are a broad overview and not model specific. Our records indicate that you have purchased a vehicle with the serial number which appears above.

On certain motorhomes, the front turn signal lights may be too small. As a result, the turn signals could be difficult to see. A turn signal that is difficult to see could cause a person not to recognize when a driver intends to turn or change lanes. This could increase the risk of a crash.
