CURTAIN, CUSHION AND PAD GROUP

NOTICE

In order to assist our Parts Sales Dept. in processing microsoftware items, please use the serial number and the color code number from the vehicle certification label when ordering. This label is located on the left side of the end of the dash (A-Body), or on the driver's door latch plate (C-Body).

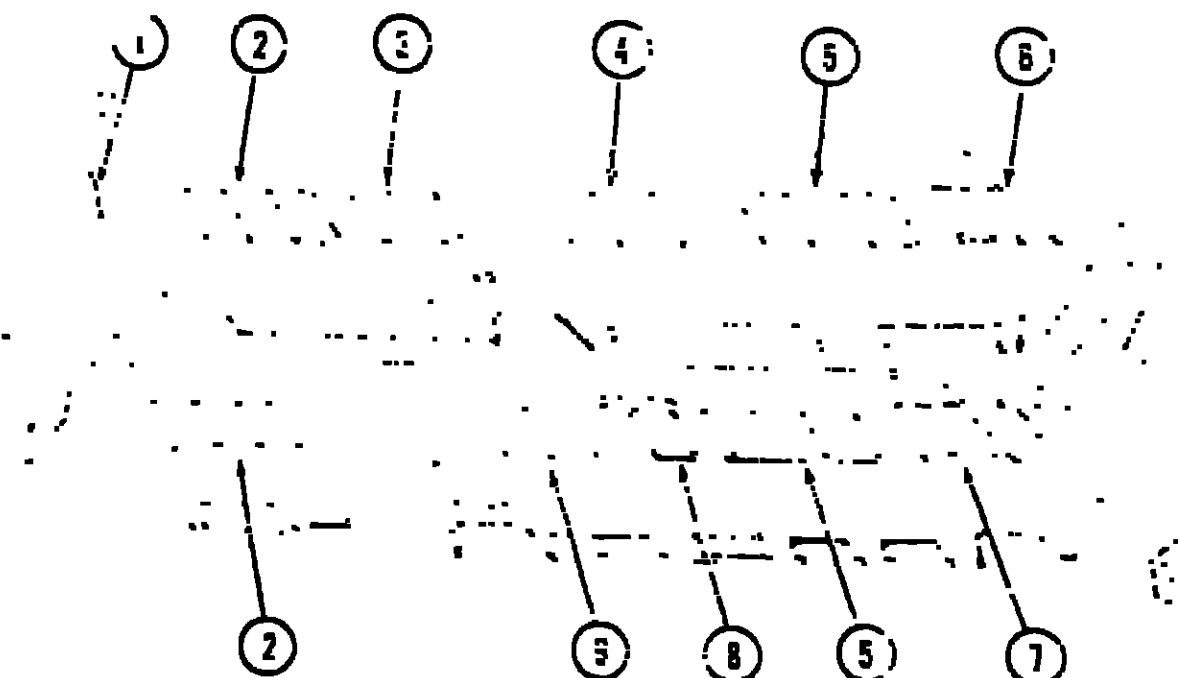

An example of a color code number is P31, which describes an overall color scheme of a particular unit. The color listed after the item description on the microsoftware indicates the overall unit color. Order the item you desire according to unit color code.

A variation exists in color code numbers on a 1983 unit manufactured before No. 5 with rear-transporting mattress. When ordering bedspread or matching curtains for units manufactured before No. 5, 1983, use the code P07. On a vehicle manufactured after that date, use the individual color code number listed on the vehicle certification label.

NOTE

Use this illustration when determining length and width measurements for curtains. You will note the width measurement is taken on the top of the curtain with the curtain fully extended. The length measurement is taken from top to bottom.

A detailed floor plan of a mobile home. The layout includes a living area with a sofa and armchairs, a kitchen with a sink and stove, a bathroom with a toilet and shower, and a bedroom with a large bed. A small table and chairs are also shown. Numbered callouts point to specific features: 1 points to a table in the living area; 2 points to the sofa; 3 points to the kitchen area; 4 points to the bathroom; 5 points to the bedroom; 6 points to the living area; and 7 points to the kitchen area.
