## CURTAIN, CUSHION AND PAD GROUP

### NOTICE

In order to assist our Parts Sales Dept. in providing interior software items, please include the actual number and the color code number from the vehicle certification label when ordering. This label is located on the left sidewall at the end of the dash (A-Body), or on the driver's door latch plate (C-Body).

An example of a color code number is P31, which designates an overall color scheme of a particular unit. The color listed after the item description on the microfiche, indicates the overall unit color. Order the item you desire according to unit color code.

A variation exists in color code numbers on all 1983 units manufactured before Nov. 8 with rear innerspring mattress. When ordering bedspread or matching curtains for units manufactured before Nov. 8, 1983, use the code P07. On a vehicle manufactured after that date, use the individual color code number listed on the vehicle certification label.

### NOTE

Use this illustration when determining length and width measurements for curtains. You will note the width measurement is taken on the top of the curtain with the curtain fully extended. The length measurement is taken from top to bottom.
