

It's in the details.

You'll like what you see as you enter the 2002 Adventurer. The spacious interior is well thought out and executed down to the smallest component. You'll notice the eye-pleasing and comfortable Stitchcraft premium furniture the moment you walk in. Day/night pleated shades offer several choices of privacy and light. The rich oak doors and drawers feature a new catalyzed finish (typically found in finer homes) for unsurpassed beauty and durability.

Nothing is left to chance when it comes to being user-friendly and comfortable. Increased living space is made possible by the StoreMore® slideout system. It moves interior cabinets and exterior storage compartments out with the slideroom for easy access. The ceiling-ducted TrueAir™ Residential Central Air Conditioning system delivers quiet, efficient cooling. A one-piece textured-fabric ceiling completes the look.

It takes a lot of listening to make a motor home this great.

Step inside the 2002 Winnebago Adventurer and you'll immediately sense this is the motor home designed and created for RVers. Explore further and you're sure to find features and details that make you think, "I wonder why nobody else thought of this?"

The simple truth. The 2002 Adventurer represents the most intensively researched Winnebago motor home that we've ever produced. It was created with the help of extensive consumer feedback from RV enthusiasts and fine-tuned through rigorous testing and field trials. The result: an ideal fusion of features and design.

Some things are simple, like the large, easy-to-operate switches. Others are more complex, such as PowerLine,™ which automatically senses and controls 110-volt electrical usage. Still others just make good sense, such as the new RV Radio designed specifically for RV use with large knob controls, cassette/CD player and weather band.

Experience the Winnebago Adventurer and discover what a motor home can be.

POWERLINE**

STOREMORE

Grab brunch or go gourmet.

It's a pleasure to prepare snacks or meals in the spacious galley of the Adventurer. Convenient features include a threeburner Magic Chef® range with oven, and a large, 30" microwave that is mounted over the range. The recessed, molded sink is stain resistant. easy to clean and includes a water purification system with a separate faucet. Solid surface countertops add a touch of class and come with a flip-up extension for even more valuable counter space. Underfoot, the galley has great-looking, long-wearing vinyl woodgrain plank floorcovering.

The bedroom slideout offers abundant living and storage space, mirrored wardrobe and a changing area. Most important, you'll enjoy a good night's rest on the walk-around queen-size bed with Serta® innerspring mattress.

Personal space or work space. The desk/vanity area in the 35U features a multi-purpose countertop with a tip-up storage area, a tip-out clothes hamper, an additional phone/modem jack and a chair that folds for easy stowing. There is also a standard, built-in 19" TV.

Stock up.

Bring along the makings for all your favorite meals and recipes. It's easy with Adventurer's slideout pantry with adjustable shelves (available on select models). The double-door refrigerator is standard, while the larger side-byside refrigerator with built-in icemaker is available on the 35U and 37G.

We've thought of everything.

The hair dryer in the bathroom is mounted so it doesn't take up valuable drawer or countertop space. It even includes a night-light.

Park anywhere.

Not only is it attractive and comfortable, the hoop-base lounge chair can be repositioned anywhere you want when the motor home is not moving. It rocks, reclines, has a footrest and is also available in luxurious leather.

There when you need it.

Need a light? Spill the popcorn? The available accessory package includes a rechargeable/ cordless flashlight and handheld vacuum cleaner. Both are conveniently located in a lower galley cabinet.

Well-designed bath.

Adventurer's bathroom is spacious and well designed. Standard features include an overhead shower skylight; single-control shower faucet; makeup lights; roof-mounted, powered ventilator fan; and abundant cabinetry for added storage.

Wash and wear.

Skip the trip to the Laundromat. Equip your Adventurer with the available washer/dryer combo (in the 37G only).

Take to the road.

The cockpit of the Adventurer is designed with your driving pleasure in mind. A lower engine cover design allows for easier access to the driver and passenger front seats. The dash controls are conveniently located and feature large, easy-to-read switches and gauges that are sized for easier operation. The standard dash-mounted electronic compass is a helpful navigation tool and provides exterior temperature at the touch of a button. The available Sony* rearview monitor system is built into the dash and includes one-way audio for safe backing and maneuvering.

Drive in comfort.

Arrive refreshed from your travels thanks to premium high-back Stitchcraft cab seats. With multi-position armrests, swivel, recline and slide features, which are easy to reach and operate, you can adjust to the position that fits you best. Available upgrades include six-way power assist and leather.

Upfront convenience.

Pull out the available passenger-side, dash-mounted workstation and you'll find a handy place for using your laptop computer, writing letters or playing cards. There is also a convenient storage area underneath.

This radio's a "wow."

Our engineers worked closely with the radio manufacturer to create the RV Radio designed specifically for RV use. It includes an AM/FM stereo cassette/CD player with a built-in weather band for immediate weather updates at the touch of a button. Its large control knobs and buttons are easy to operate.

Sit back and relax.

It's a couch! It's a recliner! It's a bed! It's all three! It's the Rest Easy™ Multi-Position Lounge.

At the touch of a button, it goes from a couch to a recliner with a pull-out ottoman.

Touch the button again and it's a comfortable 60" x 75" bed. A Winnebago Industries exclusive, Rest Easy comes standard with fabric covering or you can upgrade to the available leather.

First-class entertainment.

Enjoy the added dimension you get from a variety of entertainment options starting with the standard 25" TV. The available VCR, DVD player and digital satellite system guarantee that you'll never have to do without your favorite programs or movies. Enjoy the luxury of movie-theatre-quality sound with the available Deluxe Sound System with QSurround™ 5.1 sound. This feature also includes a stereo TV and VCR. Select the available 300 watt inverter and enjoy these features even when you're not connected to shoreline or generator power.

Easy in. Easy out.

The smooth-operating driver-side door makes entry and exit more convenient.

Well-adjusted.

The standard sound system features control knobs on the bottom of the loungearea overhead cabinets, which allows for individual speaker volume control.

Wish on a satellite.

Expand your viewing options with the available digital satellite system. For added flexibility, every Adventurer comes prewired for this option so you can easily add it if you choose.

Enjoy the power.

Keep your electrical system running smoothly, even when operating your central air conditioning on a 30-amp shoreline, with the PowerLine Energy Management System. It monitors onboard 110-volt electrical usage and automatically minimizes the nuisance of campground circuit breaker tripping by controlling the operation of "postponable" electrical loads during heavy power usage. As demand decreases, PowerLine automatically returns power to the secondary appliances and systems.

Store more gear conveniently.

A Winnebago Industries original, StoreMore is still the industry's premium slideout system. StoreMore features large, well-lit exterior storage compartments that are designed to accommodate bulky and odd-shaped items. Best of all, these compartments extend along with the slideroom for easy access without crawling under the slideroom. You'll also appreciate how easy it is to open the exterior compartment doors, thanks to single-paddle latches and gas struts.

Central water works.

Rinse off muddy or sandy gear outside at the exterior wash station. The same heated compartment also houses the major plumbing connections and service points for added convenience. System winterization and storage prep of the plumbing system is a breeze with the standard water heater bypass and manual winterization valves.

Everything is A-OK.

The OnePlace Systems Center places important and frequently used switches, gauges, levels and controls in one convenient location so you can easily check them at a glance.

The quiet powerful type.

A 5,500 watt generator is standard. Or select the available 7,000 watt model for even more capacity. Both are Onan® Marquis Gold™ models that feature electronic fuel injection, digital voltage control and an advanced vibration reduction design that makes them the quietest RV generators in their class.

No drips.

We don't overlook even the smallest detail: built-in rain gutters channel rain away from the sidewalls, doors and windows to help keep your Adventurer's exterior clean and streak free.

Select your perfect climate.

Interior climate control has never been better, thanks to Winnebago Industries' exclusive TrueAir Residential Central Air Conditioning. It utilizes superior cooling technology to supply optimum environmental control throughout the coach. At the heart of the system is a Coleman®-Mach® unit, which is located below the floor line of the coach. This not only provides a lower vehicle profile, it reduces interior noise and enables easier servicing. It also eliminates A/C-related condensation and roof run-off and lowers the vehicle's center of gravity.

TrueAir's custom-designed electronic thermostat is easy to use and offers superior temperature control. The PowerLine Energy Management System lets you fully utilize TrueAir, even when connected to a 30-amp service, by cycling secondary appliances during peak usage to maintain optimum cooling capacity. Dual high-efficiency cooling circuits supply conditioned air through ceiling-routed ducts specifically designed to reduce airflow restrictions that can rob cooling efficiency. Improved interior air quality is provided by a residential-style filter that is larger and easier to replace than foam pad filters used on most roof-mounted A/C units. For more precise comfort, airflow volumes to specific areas are easily regulated to accommodate personal preferences, with individual ceiling-mounted vents that adjust for both airflow and direction.

Choose the available Home Comfort Plus Package, which provides a convenient source of heat on cool mornings without starting the LP-fueled furnace.

Seeing is believing.

Adventurer's exterior mirrors feature larger flat and convex surfaces for expanded visibility and safety. Adjusting them is a snap thanks to the standard electric remote controls, which also include a defrost feature.

Get a handle on it.

Whether you are setting up at a campground or making a quick stop at a convenience store, the easy-to-grab exterior assist handle and extra-large interior assist bar help you get in and out with ease.

Now that's entertainment.

Adventurer comes equipped with an exterior entertainment center that includes AM/FM stereo with an antenna, a cassette or CD player, 12-volt DC receptacle, TV jack, 110-volt outlet, speakers and a removable table. The compartment locks securely.

The key to it all.

The KeyOne™ system allows one key to open most door locks. What could be simpler? For added convenience, the key is double bitted so it easily fits into the lock no matter which way the key is inserted.

Note: Dimensions shown are for sleeping space only and dashed lines denote overhead storage areas.

The outside story.

Adventurer's one-piece fiberglass sidewall is amazingly tough—typical for Winnebago Industries' design. Laterally mounted floor risers allow for true basement storage. The hydraulic jacks help keep the Adventurer stable and level while parked, and the stainless steel wheel liners add a touch of class.

O Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

**See your dealer for complete warranty documentation information.

Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR & GCWR as well as adequate trailer brakes. Please refer to your vehicle's operator's manual for further towing information.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

Not all motor homes are created equal.

As you take a closer look, you'll see that there is much more to the Winnebago Adventurer than a long list of standard features and compelling floorplans. Beneath it all you'll find a SuperStructure™ foundation of strength and durability, and Winnebago Industries' recognized service and warranty support.

We are committed to service.

We back our motor homes with the best after-the-sale service in the industry.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof warranty
- Complimentary 24-hour Roadside Assistance Program
- TripSaver emergency warranty parts shipments
- National Dealer service network

Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and on their sales and service support. Winnebago Industries has achieved the coveted Quality Circle award every year since its inception, the only major motor home manufacturer to do so

Learn more about what sets Winnebago Industries apart.

Ask your dealer for this guide. It will help you learn what makes Winnebago Industries motor homes distinctly superior to other brands.

Warning: Joining WIT has been known to cause excessive fun.

Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:

- Caravans and rallies
- · Local and state group activities
- · Benefits for RVers

Seat belts are your most important hookup. Always buckle up. Visit us at www.winnebagoind.com

SuperStructure

is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures, composite design laminated floor risers, interlocking joint technology, and Thermo-Panel® floor, roof and sidewalls to form a high-strength, durable vehicle body.

Interlocking joint construction utilizes advanced extruded aluminum structural components to create integrated floor-to-sidewall, and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a Laminated risers feature a welded aluminum stronger and more durable body than core for superior strength and provide a competitor designs that rely on screws stable base for the floor structure and to carry the weight. storage compartments. The foundation substructure assembly is precision-aligned to maximize strength and crosscoach support as Storage well as durability. compartments attach to outrigger Windshields are assemblies so the weight of stowed items is carried and mounted in steel with non-hardening sealants disbursed throughout the for superior strength, foundation substructure. safety and durability. B pillars for added strength and stability.

Adventurer features a crowned, one-piece fiberglass roof backed with a 10-year limited parts-andlabor warranty. Fiberglass offers superior strength, attractiveness and durability over rubber roofs found on many competitive models. Over time, rubber roofs are susceptible to chalking, streaking and degradation, and have less puncture and tear resistance than fiberglass.
