Change Your Perspective

Those who think you can't live in luxury in a Class C coach have never traveled in a Winnebago Aspect.® This Class C sensation comes loaded with upscale amenities and an extensive amount of storage, thanks to a large exterior rear trunk with multiple access points. Choose from the double-slideout 27K or the new triple-slideout 30J, both offering MCD blackout roller shades, Corian® galley countertops with available mosaic tile backsplashes, and available dual-pane Contour windows. And, because it's made by Winnebago Industries,® you can rest assured knowing you will be getting the most out of your Winnebago Aspect for years to come.

Recognized Quality The RV Dealers Association bestows its annual Quality Circle Award based on dealer ratings to the manufacturers that provide exceptional products, service and support. Only one manufacturer has received this honor for seventeen consecutive years: Winnebago Industries.®

Best in Class

Full-Extension Drawer Slides make it easy to open drawers wide and maximize their storage space.

The **OnePlace® Systems Center** lets you monitor and control key systems from one convenient location.

Expand your living space with **Swivel Cab Seats** that turn to face the lounge (standard 27K, available 30J).

Adjust your preferred light and privacy settings with the available **MCD Solar/Blackout Roller Shades** (MCD blackout roller shades standard).

Enjoy exceptionally comfortable dining in the **BenchMark® Full Comfort Dinette** with its premium innerspring seating. The seats tilt up providing easy access to storage underneath and effortlessly convert into a relaxing sleeping space.

Designed for superior comfort and relaxation, the Aspect lounge offers numerous furniture options including the BenchMark full comfort dinette, available Ultraleather™ Comfort Sofa Sleeper or the Ultraleather Rest Easy® sofa. A 26" HDTV with surround sound and a DVD player makes for memorable movie nights, while the MCD blackout roller shades and LED lighting allow you to control light and privacy. Take advantage of the newly available dual-pane Contour windows that provide superior seal and reduced wind noise. The standard 4,000-watt Cummins Onan® generator provides the power you need, even when not connected to a shoreline source.

Available Stylized Aluminum Wheels

Fiberglass Roof
The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It
Rubber roofs used by competitors can streak and degrade over time.

Thermo-Panel® Sidewalls
By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

E-Coating An electrodeposition coating helps protect critical steel components.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

SUPER STRUCTURE®
BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago Industries'® legendary SuperStructure® construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING

Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

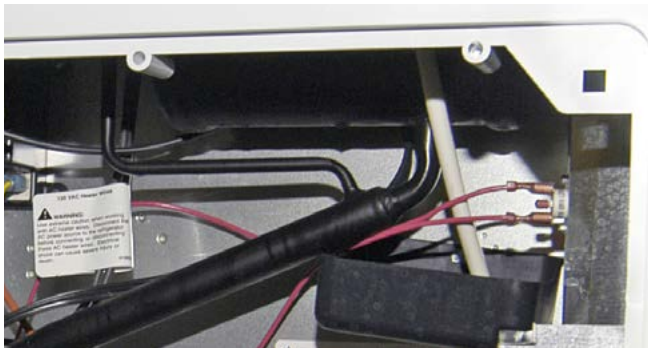

DETAILS

At Winnebago Industries, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago Industries maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE

We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.

2 The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.

3 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

4 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

5 Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

6 See separate chassis warranty.

7 See your dealer for complete warranty information.

Winnebago Industries'® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.

OUT OF THIS WORLD

2014 WIT CLUB GNR '69

Grand National Rally

In 1969, two things happened: Neil Armstrong took mankind's first steps on the moon, and Winnebago Industries' WIT Club launched its first Grand National Rally in Forest City, Iowa. Every year since then, thousands of rally-goers connect with old friends to enjoy concerts, tours, activities, and more. Blast off for an adventurous week in July to celebrate 45 years of interstate land roving at the 2014 "Out of This World" Grand National Rally. It's a mission you'll never forget!
