Froli® Deluxe Sleep System

Threshold™ Quiet RV entrance door

Tankless water heater (25P)

On the Cover: 25P Charcoal Bronze Full-Body Paint

25P Tidewater with High-Gloss Marbella Cabinetry

Class A Like You've Never Seen Before

The Via® redefined the Class A motorhome with the introduction of the Mercedes-Benz® Sprinter Chassis. That original design has been further refined to deliver the fuel economy and smooth performance you've come to expect from the Sprinter, with additional headroom and cab room for a more enjoyable ride. The chassis also allows for more interior and exterior storage, and the cab offers additional seat boosters to level the swivel seats with living area. Both 25-foot Via floorplans are loaded with innovation, such as the waterfall countertop and the Deluxe Froli® Sleep System. See what's possible in a nimble Class A coach with the Winnebago Via.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

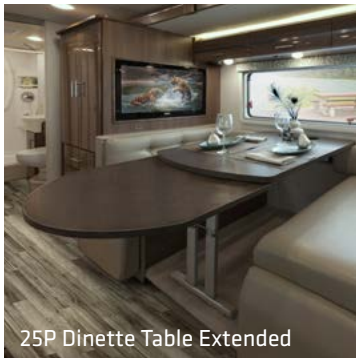

25P Dinette

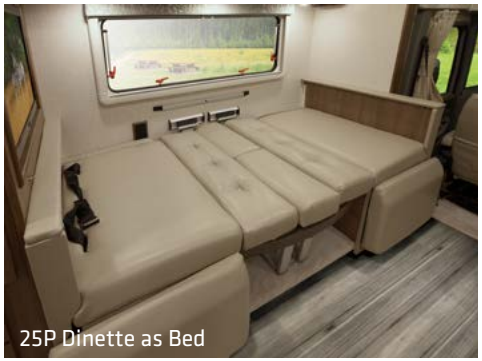

The Via greets you with carefully selected fabric collections and in-demand features such as LED lighting and MCD solar/blackout roller shades. The 25T offers a moveable pedestal table that can be placed in front of the Flexsteel® Fold N Tumble sofa or the swivel cab seats that turn to create a nice conversation area. If you prefer the versatility of the BenchMark® dinette, select the 25P and enjoy the hidden storage beneath the seats and the quick conversion into a sleeping area. Enjoy all of today's top shows on the HDTV with an available satellite TV antenna.

25P Dinette Seats Extended

25P Dinette Table Extended

25P Dinette as Bed

The galley design of the Via is all-new in both models, blending the contemporary style you desire with the features you need for life on the road. The waterfall countertop is sure to be a conversation starter in the 25P, along with the stylish glass heat shield above the range and the two-tone cabinet doors. The 25T boasts an open layout with a large galley window so you can enjoy the view while you prepare meals.

25P Bedroom

25P Wardrobe

25P Vanity

The Via is all about options. Choose a corner queen bed in the 25P or opt for the Flex Bed in the 25T that converts from a king bed into two twin beds at your convenience. Add the StudioLoft™ to the cab of either model and you'll be ready to travel with the entire family. Overnight guests will love the flexible shower in the bathroom, while you'll appreciate the retractable shower door that self-cleans as it opens.

Dash

The Sprinter chassis has perfected Class A cab ergonomics with an additional 17" of headroom and your choice of a driver-side door or additional interior and exterior storage. Mercedes-Benz enhances this fun-to-drive coach with standard safety features such as power mirrors with defrost, a sideview camera system and an available collision avoidance system. The 6" touchscreen monitor incorporates an infotainment system with CD/DVD player, Bluetooth™ connectivity and the Rand McNally GPS for accurate turn-by-turn directions.

Mobileye

Front Wraparound Curtain

Cab Reclined with Booster

Powered Patio Awning with LED Lighting

The Sprinter chassis gives the Via a distinct appearance, which truly stands out when you select the premium full-body paint. Add polished stainless steel rocker panel trim and additional exterior chrome accents by choosing the available Deluxe Package. A powered patio awning with LED lighting and a metal wrap come standard. High-end details such as the Threshold™ Quiet RV Door and a large compartment with dedicated storage straps for your golf clubs make travel in your Via that much more enjoyable.

Fiberglass Roof The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

E-Coating An electrodeposition coating helps protect critical steel components.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

SUPER STRUCTURE®

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING

Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

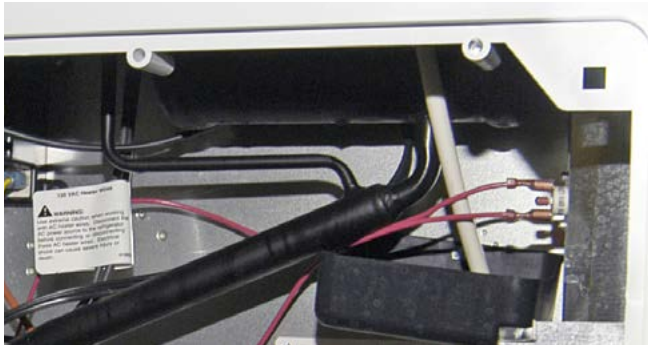

DETAILS

At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE

We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

SUPER STRUCTURE®

BUILT TO LAST

36-month/36,000-mile limited warranty on structure[7]

10-year limited parts-and-labor warranty on roof skin[7]

FOOTNOTES

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
3. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
4. Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
5. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
6. See separate chassis warranty.
7. See your dealer for complete warranty information.

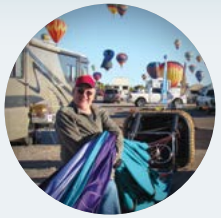

NA Not Available

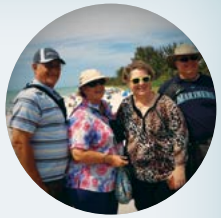

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
