Vista LX

WINNEBAGO

Why Vista LX?

- Touch screen Radio/Rearview Monitor System
- Dash workstation with USB/12V cable connections
- Versa easy-swivel driver's seat
- One-piece fiberglass roof
- Available powered StudioLoft™ bed
- Powered patio awning
- Soft Primera® furniture
- Bunk beds (35B)
- MCD solar/blackout roller shades
- Available BenchMark® dinette
- Available A/C heat pump(s)

On the Cover: **35F** Cream Full-Body Paint

35F Stardust with Honey Cherry Cabinetry

The Next Level of Value

The Vista® LX takes value to the next level, introducing a large complement of upgraded features and a bold exterior appearance to a host of fresh floorplans. Upscale features such as Corian® galley countertops and MCD roller shades come standard, while the available Interior Upgrade Package adds the Dream Dinette™ dining table, hardwood refrigerator door inserts, a vinyl ceiling, and much more. Onlookers will be impressed by the chrome accents and available full-body paint, while you'll be impressed by the budget-friendly price. You wanted more in an affordable Class A coach, and you got it in the Vista LX.

Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

35F Stardust with Honey Cherry Cabinetry

Four floorplans provide an array of lounge options from the Comfort Sofa Sleeper, available in most models, to the oversized Extendable Sectional Sofa in the 35F that faces a corner mounted entertainment center. A large-screen HDTV that is connected to the cab DVD player comes standard in each floorplan. The available Interior Upgrade Package includes a bevy of amenities such as a vinyl ceiling, and numerous galley upgrades that make the Vista LX a step up from other coaches in its class. Your dining options include a dinette or dining table/buffet. Add the powered StudioLoft™ bed and turn the cab into a second bedroom at night.

Dash

Fully adjustable Primera cab seats put you at ease behind the wheel of a powerful Triton V10 engine. A 6" touchscreen works as both the rearview monitor and your controls for the radio and CD/DVD player. The passenger can pass the time at the dash workstation, which is the perfect height for your notebook computer. You can also add a passenger seat footrest if you prefer to just kick back and enjoy the ride.

Dash Workstation

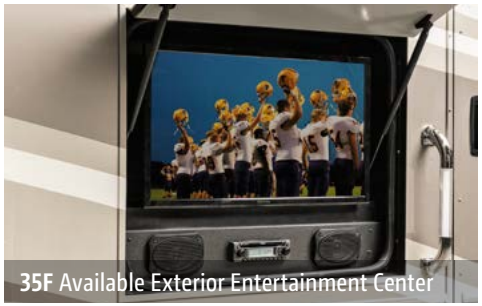

Infotainment Center

35F Powered Patio Awning

Exterior Service Center

Exterior Wash Station

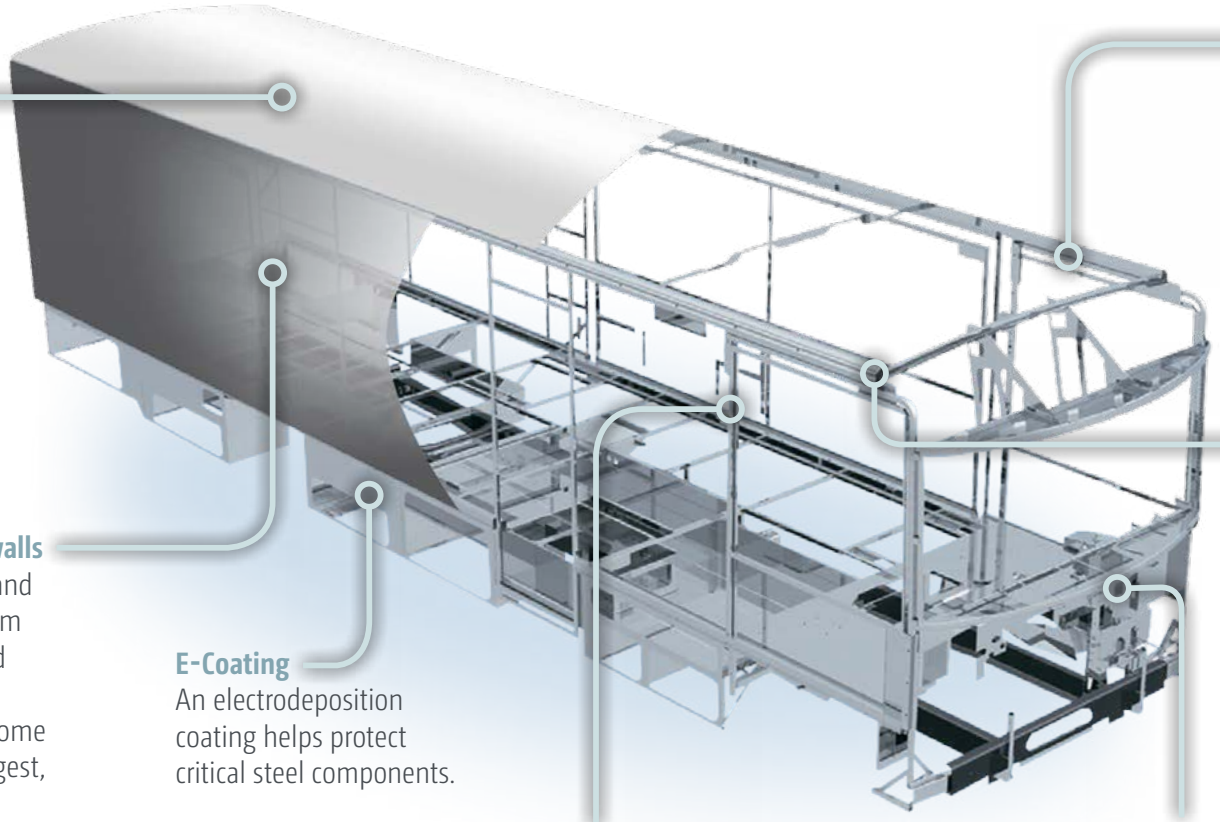

Exterior Storage Compartment

35F Available Exterior Entertainment Center

The Vista LX boasts large exterior compartments for all of your gear and single-handle doors with dual latching points for easy, secure access. Pull out some lawn chairs and relax beneath the powered patio awning. You can even listen to music and watch TV on the available exterior entertainment center. A gas generator comes standard in all models for portable power away from the campsite.

Automatic Entrance Steps

Powered Mirrors with Defrost and Camera

Fiberglass Roof
The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Rubber Can't Cut It
Rubber roofs used by competitors can streak and degrade over time.

Thermo-Panel® Sidewalls
By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

E-Coating
An electrodeposition coating helps protect critical steel components.

Laser-Cut Tubing
Precision laser cutters create precision joints in structural steel that are stronger and require less welding.

Interlocking Joints
Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

Solid Framework Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

SUPER STRUCTURE®
BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING

Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

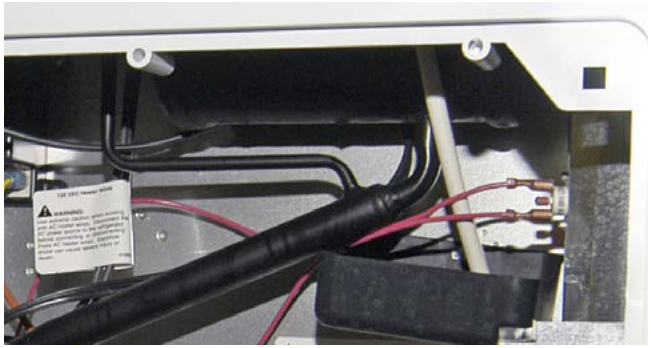

DETAILS

At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE

We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

SUPER STRUCTURE®

BUILT TO LAST

Visit **BetterBuiltRVs.com** to gain real insight into what goes into a Winnebago motorhome.

TAKE A TOUR

We're proud of our processes, state-of-the-art facilities, and the people who make Winnebago number one. We invite you to visit our complex in Forest City, Iowa, for a firsthand look at the dedication and technology behind every motorhome we build.

12-month/15,000-mile basic limited warranty[8]

36-month/36,000-mile limited warranty on structure[8]

10-year limited parts-and-labor warranty on roof skin[8]

FOOTNOTES

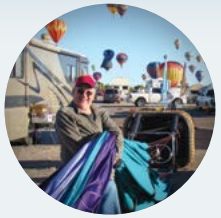

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
2. Floorplans feature a wide-body design - over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
5. Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
7. See separate chassis warranty.
8. See your dealer for complete warranty information.

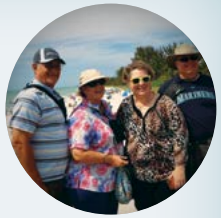

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
