Lead the Way

Winnebago® continues to lead the Class C market thanks to a commitment to quality construction and innovative features. The Aspect® embodies this mantra with standard amenities such as swivel cab seats that become part of the lounge and a large exterior storage trunk with a recessed compartment where you can keep drinks on ice. Available upgrades include dual-pane Contour™ frameless windows that are unrivaled for their quality in the Class C market. Choose from two floorplans, both with walk-around queen beds and robust entertainment centers, that provide all the residential comfort you crave when you're on the road. Lead the way in comfort and class in a Winnebago Aspect.

30J Autumn Ridge with Coffee-Glazed Honey Cherry Cabinetry

Surround yourself in the comfort of Ultraleather, whether you're dining in the BenchMark® dinette or relaxing in one of the sofa/sleeper options, such as the Rest Easy® sofa or Flexsteel Fold N Tumble. Select the Interior Upgrade Package for additional stylish amenities such as a wall mirror (27K), throw pillows, MCD solar/blackout roller shades, and many more features throughout the coach. Available Contour™ windows demonstrate Winnebago's obsessive attention to detail with a frameless design that sits flush to the sidewall, reducing wind noise and providing a superior seal. Details such as USB chargers throughout the coach and the rain cover on the available MaxxAir™ powered ventilator fan put your mind at ease so you can sit back and enjoy your HDTV.

30J 3-Burner Range with Glass Cover

The Aspect dedicates ample space for meal preparation with a polished Corian® countertop and a flip-up extension in the 30J. New this year, the 3-burner range is recessed into the countertop with a glass cover to expand your prep space even more. A microwave/convection oven pulls double-duty, heating food faster while baking and browning like a conventional oven, saving space for storage below the stove. The two-door refrigerator/freezer sits next to a sliding pantry in the 27K that is perfect for soups and spices. If you prefer to maximize your cold storage, the entire unit can be replaced with a four-door refrigerator/freezer with icemaker (27K).

Fiberglass Roof
The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls, and roof where competitors often rely on simple screws to bear the weight.

Thermo-Panel® Sidewalls
By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable, and lightweight sidewalls.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

E-Coating An electrodeposition coating helps protect critical steel components.

Solid Framework Structural extruded aluminum creates an extremely strong and solid structural framework.

SUPER STRUCTURE®
BUILT TO LAST

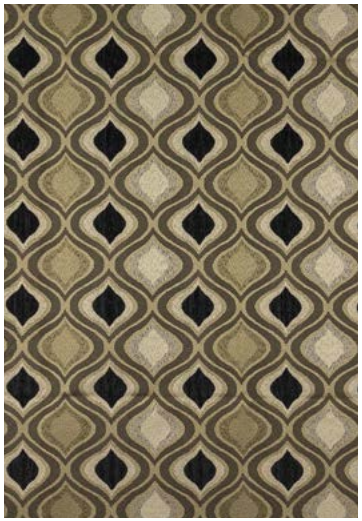

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

FOOTNOTES

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
2. Floorplans feature a wide-body design - over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
5. Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
7. See separate chassis warranty.
8. See your dealer for complete warranty information.
