

QUALITY

Winnebago RVs are designed and built around you, with superior craftsmanship, advanced manufacturing technologies and steel-focused construction to enhance safety and reliability.

INNOVATION

From groundbreaking RVs to game-changing features to the spacious floorplans made possible by our SmartSpace™ design, our heritage is unrivaled for continuous industry firsts in vehicle technology and design.

SERVICE

Our carefully chosen dealers are supported by factory training and our advanced parts supply system, while owners benefit from excellent real-world customer support as well as 24/7 access to online technical information.

Designed for Adventure

In a world where roles can change by the hour, flexibility is paramount. And when it comes to flexibility, few vehicles can match the remarkable Winnebago® Solis®. Seating up to six, the Solis can easily function as a family car — a car equipped with kitchen, dinette and bathroom. Yet when the time comes, load up your favorite outdoor gear and head out, knowing the versatile Solis is ready for whatever adventure lies around the next bend.

No matter where your road leads you, at the end of the day, simply turn the key off and you're home.

PRACTICAL, MEET VERSATILE

Seating up to six, the Solis easily transitions from a practical family car during the week to a comfortable, self-contained retreat once the weekend arrives.

A HOME FOR YOUR GEAR, TOO

The large gear garage (36A, 59PX) includes a durable L-track storage system that can be customized with mounts and tie-downs to secure bicycles or other gear and cargo.

BRING THE FAMILY, NOT THE TENT

Thanks to its pop-top and Murphy+ bed (or available rear sofa/bed, 59P), the Solis offers generous sleeping space for a family of campers.

WORK REMOTELY – EMPHASIS ON REMOTE

With the Murphy+ bed raised up, the movable pedestal table becomes a workstation-with-a-view for road warriors (59P, 59PX).

SLEEP CLOSER TO THE STARS

The 59P and 59PX include a standard (with option to remove) fiberglass pop-top with FROLI® Sleep System that comfortably sleeps two, while the 36A features our Murphy+ bed as well as a multi-use dinette that converts to a sofa, daybed or single bed.

We've engineered more into your Solis, so you get the most out of every adventure

1. Versatile lounge living

Swivel cab seats, the adjustable/removable dinette table, and a multitude of storage options let you customize the Solis lounge for dining, relaxing or working from the road.

2. Quiet, efficient heating for chilly nights

The high performance, LP-powered Truma system provides quiet comfortable heating, all controlled by the temperature set on the digital control panel.

3. Galley with indoor/outdoor functionality

With its forward-facing refrigerator, pullout counter extension, and adjustable exterior table (36A), the Solis galley is designed to allow easy access from inside or outside the coach.

4. Cross-coach Murphy+ bed

The comfortable, supportive Murphy+ bed (59"x77", 59P, 59PX or 52"x75", 36A) is set to accommodate storage for bicycles or other gear below the bed. On the 36A, removable cushions on the passenger side reveal a countertop surface that's ideal for food prep or as a stand-up workspace.

5. Pop-top sleeping for two

The easily operated pop-top offers panoramic views and provides a restful night's sleep with its innovative, comfortable 52"x79" FROLI® sleep system, which conforms to your body and allows greater air flow below the mattress (NA 36A).

6. Bathroom

The wet bath in the 59P and 59PX makes the most of its compact space, with a cassette toilet, flexible showerhead and removable closet rod that provides extra hanging space.

Winnebago's smart design and advanced technology enhance safety on the road, and provide added comfort and convenience in camp.

TAKE A SEAT AND TAKE COMMAND

The fuel-efficient Promaster® chassis is easy to maneuver, with advanced safety features and an automotive driving experience that will have you feeling right at home.

3 POINT SEATBELTS FOR 4 PASSENGERS

Both dinette seats feature 3-point seatbelts, while the available sofa/bed with child seat tether anchors (59P) boosts seating capacity to six — all with 3-point seatbelts.

A CLEARER REAR VIEW

For more insight into what's happening outside, the innovative Digital Rearview Mirror converts from a reflective mirror to a real-time video stream at the touch of a button.

EASY LIVING

The rear annex extends your living space and can easily be used as an exterior shower space, awning, or clothesline for wet suits, laundry or other items.

Child seat tether anchor (36A, only available w/59P sofa/bed option)
Fog lamps (59PX)

Warranty⁵

12-month/15,000-mile basic warranty⁶

FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
 - Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
 - Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
 - Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
 - See separate chassis warranty.
 - See your dealer for complete warranty information.
- NA Not Available

Not all items available in combination. See dealer for details.

Because features, specifications, equipment, and options may vary from those highlighted in this brochure, the buyer is responsible for confirming with the dealer the features, specifications, equipment, and options included on their specific vehicle. In addition, Winnebago's program of continuous product improvement may result in changes to vehicle specifications, equipment, model availability, and price without notice.

Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.

What do you need to know before you go?

And how does that cassette toilet work again?

The answers to these and many more questions are literally at hand, thanks to HowToSolis.com, the app-based system of how-to videos that explains pretty much everything you need to know to get the most out of your Solis.

From adjusting seats and lowering (or raising) a bed, to operating major systems, plumbing and electrical basics, even winterization — it's all here. And it's all at your fingertips wherever your Solis takes you.

MEET THE SOLIS® POCKET™

Winnebago's most affordable camper van, the new Pocket, is designed for life on the go, with extended-season capability and a flexible floorplan you can customize for relaxing, working, or socializing.

Extended-season capability lets you camp in comfort, thanks to the Truma VarioHeat heating system, extensive insulation, and locating all water tanks, valves, lines and pump inside the coach.* The Pocket has earned Truma's Gold Certification for cold weather capability.

Versatile living space features a dinette that converts to a sofa, daybed or love seat, an adjustable/removable table, swivel cab seats and plenty of storage options.

Convenient, removable 20-pound propane cylinder is securely located inside the coach for extended-season use, and can be easily filled or exchanged.

Flexible galley offers functionality inside and outside the coach, with exterior table, stainless steel sink, two-burner cooktop and forward-facing refrigerator. Remove the cushions on the passenger side to reveal an extended countertop surface that's ideal for food prep.

Efficient RAM Promaster® chassis provides significant ground clearance, is easy to maneuver and park with its 136-inch wheelbase, and features a digital rearview mirror that converts from a reflective mirror to a real-time video stream.

MOLLE (Modular Lightweight Load-carrying Equipment) panel can be used to secure the Pocket's removable galley storage pack, outdoor gear, or other accessories.

Cross-coach Murphy+ platform bed is set at a higher point to allow bicycle and other gear storage below the bed using the L-track cargo tie-downs and/or MOLLE panel.

Multi-use storage along the dinette sidewall supports remote workers with bottom-hinged storage cabinets for files, laptops or supplies, pockets for storing and charging electronics, and cupholders.

* Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.

The Winnebago logo is displayed in a bold, white, sans-serif font with a horizontal line through the middle of the letters. It is positioned in the bottom left corner of the image, partially overlapping the grassy foreground.
